

CREDENTIALING YOUR TEAM WITH CONFIDENCE

How Forward-Thinking Employers
Upskill with Global Certifications

Independent Credential Consulting for Workforce Transformation

Why Team Credentialing Matters

The New Standard for Capability Building

In today's fast-moving economy, skills become outdated in months, not years. Yet many L&D strategies still rely on generic training and disconnected development frameworks.

Global certifications change that.

They provide:

- Independent validation of real-world skills
- Role-aligned benchmarks used by global employers
- A credible foundation for talent mobility, reskilling, and strategic hiring

How Blazeprep Supports Employers

We Guide. You Grow.

We help you:

- Identify the right certifications for your roles and functions
- Build a phased credentialing roadmap (5 people or 500)
- Align certifications with career frameworks and L&D goals
- Coordinate onboarding, pre-evaluation, and planning for teams
- Ensure integrity and credibility (we only work with respected, independent bodies)

We are not:

- A course seller
- A coaching company
- A job placement firm

We are your neutral credentialing advisor—focused on helping you choose what works best for your workforce.

Certifications We Support

Global Certifications That Signal Real Readiness

We help employers integrate certifications from globally respected bodies, including:

Certification Body	Certifications	Domain
TMI	TMP™, STMP™, GTML™	HR & Talent
